Fr. Robert McGrath, O.S.A. Scholarship Active in Ventura County Catholic community

Name of Applicant: _____

Villanova recognizes, first and foremost, the potential in every student and seeks to provide an environment that nurtures this potential. These high school years are the most formative in a young person's life and we walk together – student, parent, educator – on this journey. Each student's talents are unique, some are special.

Villanova actively seeks to enroll students with particular talents and skills that enhance the learning experience. Scholarships are awarded to certain students in recognition of those particular gifts that enrich the learning experience, as a way to invest back into the school community.

A 1928 Villanova Prep graduate, Fr. McGrath was the son of one of the founding Oxnard families of the school and the first Villanova grad to be ordained a priest. This scholarship renews the heritage of Oxnard and Ventura families who sought a local Catholic high school for their children. Fr. McGrath taught at Villanova for twelve years.

Fr. Robert McGrath, O.S.A. Scholarship is awarded to students who are active participants within the Catholic community of Ventura County.

To be considered for this scholarship, the applicant must submit all of the following by January 31:

- application for admission, including all supplements (should already be on file with the Admission Office)
- Parish Information form
- Fr. McGrath Scholarship application

The Scholarship committee is comprised of members of the Admission Team and faculty. After the committee reviews each scholarship application thoroughly, a select number of students will be awarded an amount deemed appropriate. The scholarship award will be no less than \$1000 and will be awarded for all years of attendance.

Certain expectations are set upon these scholarship recipients. Students must remain in good standing and share their recognized skills with the school community.

We, the parent and student, verify the information contained within is accurate and understand the portfolio will not be returned.
